

Paris Accounting Corp.

Thank you for inquiring into accounting services with my firm. If one of our existing clients recommended you to us, please let us know.

We are a 'boutique' CPA firm

We need to get to know a bit more about each other before either of us can commit to adopting each other as a CPA /Profitability Consultant and Client.

We specialize in tax preparation for successful self-employed individuals and the closely held businesses they own and run. Examples of some industries we service are: multi-state internet based retailers, wholesalers, retailers, professional services corporations and some unique businesses I loosely might categorize as related to the advertising fields.

We also are experts at income tax resolution. So far, all cases we have agreed to resolve with the IRS or NYS have been resolved to the satisfaction of both parties.

During tax season, I would prefer if you contact me via email, due to the client work I commit to each year.

Thanks again for inquiring or surfing our website,

Harlan Kahn, CPA
Paris Accounting Corp, President
